predetermined afflictions
a predetermined pain
fate would lead you around
then make you go insane.

trial of your misfortune
distress is your woe
tribulation surrounds you
you've no place to go

ceremonial breakdown
ceremonial wine
got to follow the game plan
got to stay in line

the test of your convictions
the warrant of assent
do you know who you are
do you know what you meant

conclusion of judgment
consequence your decree
society made you
it's your destiny

ceremonial breakdown
ceremonial wine
got to follow the game plan
got to stay in line...
