### "Gonna Do That"

I'm gonna do this  
Gonna do that  
Hey round to it  
Where you at

Some times I feel  
Like running away  
But I'll do that  
Another day

Round and round  
All day long  
Second hand sings  
That same old song

The sun comes up  
The sun goes down  
And I'm still here  
In this same old town

Tell me this tell me that  
Advise is free  
But I'd do that  
Differently

With the knowledge of  
The universe  
Just another line  
Another verse
