You want me, you got it
Catch me when you can
Now you see me, now you don't
Here I go, I'm gone again

I'm on the move, with nothin' to do
But play another game
You know it's true, win or loose
It's all about the same

Down the road, see me smile
Laughing at the game
Are you winning, did you loose
What it is, it's all the same

The magic game is what I play
And I play it very well
Cause if you ask me I can only say
I don't believe in hell
