I can't believe media, they find it all entertaining
That's a great idea, planting seeds in the next kid's
brain and
It's an exploitation and we're making light of travesty
God, help our nation, it's teenage insanity

Columbine, can someone tell me what's up with this?
Santee High, Granite Hills not far behind
'Cuz in this present time and day, there's got to be a
better way
There's gotta be a better way, yeah

I need Jah
They need Jah
We need Jah
We need some help

I need Jah
They need Jah
We need Jah
We need some help

See my greatest fear has turned into reality
Never in a million years
Did I ever think it would come this close to me?
Look at all these bodies blood dripping from their
young hair
As the world keeps turning, God, it seems like no one
cares

Columbine, can someone tell me what's up with this?
Santee High, Granite Hills not far behind
'Cuz in this present time and day, there's got to be a
better way
There's gotta be a better way, yeah

I need Jah
They need Jah
We need Jah
We need some help

I need Jah

They need Jah
We need Jah
We need some help

I need Jah
They need Jah
We need Jah
We need some help

I need Jah
They need Jah
We need Jah
We need some help

I need some lesson
I need Ya, I love Ya

Columbine, can someone tell me what's up with this?
Santee High, Granite Hills not far behind
'Cuz in this present time and day, there's got to be a
better way
There's gotta be a better way, yeah

I need Jah
They need Jah
We need Jah
We need some help

I need Jah
They need Jah
We need Jah
We need some help

I need Jah
They need Jah
We need Jah
We need some help

I need Jah
They need Jah
We need Jah
We need some help
