"Work On Me"

Visit "[Work On Me](#)" on MotoLyrics.com

Lord work on my eyes, so I won't see no evil
See no evil
Lord work on my ears, so I won't hear no evil
Hear no evil

Lord work on my heart so I can love everybody
Lord work on my life, so I'll be pleasing to Your sight
You know what's up

You know what's up, so fix me up
Please Lord, just work on me
You know my faults, my secret thoughts
Please Lord, just work on me

Lord work on my mind, so I won't think no evil
Think no evil
Lord work on my, my, my, my mouth, so I won't speak
no evil
Speak no evil

Lord work on my heart so I can love everybody
Lord work on my life, so I'll be a holy living sacrifice
You know what's up

You know what's up, so fix me up
Please Lord, just work on me
You know my faults, my secret thoughts
Please Lord, just work on me

You know what's up, so fix me up
Please Lord, just work on me
You know my faults, my secret thoughts
Please Lord, just work on me

You know what's up, so fix me up
Lord work on me
You know my faults, secret thoughts
Please Lord, just work on me

Work on me, work on me
Work on me, work on me
Work on me, work on me

Work on me, work on me

Fix me up, work on me
Fill my cup, work on me
Lord, I need You, work on me
Somebody say yeah

Work on me, work on me
Work on me, work on me
Work on me, work on me
Work on me, work on me

Whatever You want from me
(Work on me)
I'm giving You everything
(Work on me)

Lord, work on me
(Work on me)
Somebody say yeah, yeah

Work on me, there's some things you need
Work on me, don't You think You have it?
Work on me, take it off of me
Work on me, hope you don't forget it

Work on me, work on me, Lord
Work on me, work on me, Lord
Work on me, work on me, Lord
Work on me

Work on me
Work on me
Work on me

Work on me, there's some things you need
Work on me, don't You think You have it?
Work on me, take it off of me
Work on me, hope you don't forget it

Work on me, work on me, Lord
Work on me, work on me, Lord
Work on me, work on me, Lord
Work on me

Work on me
Work on me
Work on me

...
