### "Kiss Me Slow"

Visit "[Kiss Me Slow](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Remember how it was at the start  
When love was new, I gave you my heart  
We were as close as two people could be  
Special times for me

You were my lover and my best friend  
A person on whom I could depend  
You'd brighten up my darkest day  
With tender things you used to say

Wrap your arms around me and hold on tight  
Love me completely all through the night  
Kiss me slow till our hearts beat fast  
Hold me close so this moment will last

Well years have gone and the memories fade  
With all the plans and love that we made  
Drifted apart, nothing I could do  
Do you say these words to somebody new

Good times and bad with you by my side  
Rollercoasters that we've had to ride  
Through years of laughter and sadness too  
These are the words I'd say to you

Wrap your arms around me and hold on tight  
Love me completely all through the night  
Kiss me slow till our hearts beat fast  
Hold me close so this moment will last

Wrap your arms around me and hold on tight  
Love me completely all through the night  
Kiss me slow till our hearts beat fast  
Hold me close so this moment will last  
Kiss me slow till our hearts beat fast
