Well music plays your body sways the night is young,
The evening sun falls softly to the sea,
On golden sand a flamenco band is calling you,
Beautiful, beautiful girl I'm in love with you.

Fire light the moon is right to dance with you,
I never fell in love like this before,
I close my eyes I know that I will dream of you,
Beautiful, beautiful girl I'm in love with you.

Hold me close and tell me that you love me too
I never wanna be away from you
Margaritas and Senioritas won't keep me from you
Beautiful, beautiful girl I'm in love with you.

LEAD BREAK

Hold me close and tell me that you love me too
I never wanna be away from you
Margaritas and Senioritas won't keep me from you
Beautiful, beautiful girl I'm in love with you
Beautiful, beautiful girl I'm in love with you
Beautiful, beautiful girl I'm in love with you
