Keeps it poppin like West coast in '83  
When we was bumpin Slave, Rick James and Lady T  
My man with the East coast taste from Red Alert  
Pete Rock, Marley Marl, put-tin in work  
On the West we had Julio G on KDAY  
Mixmaster Michael mixin more in his heyday  
Rob 1 droppin shit so niggaz could break  
All my real niggaz - all a nigga wanna do is get cake  
All them other niggaz - all a nigga wanna do is be fake  
But now - oh shit, damn I'm goin to another wake  
Remember, 'bout the times in school  
When we made a fool of ourselves to impress a girl,  
tryin to be cool  
Ohh, some niggaz gettin sprung on coke  
I'm like oh, young niggaz gettin sprung off {\*BLAM\*}  
Oh shit! Some niggaz never learnin the ropes  
Ropes...

[scratching]

Keep this hustling up  
I'm fucking you up  
Talk all that  
Fuck all that  
Hardcore new V.R.  
Mathematic, here in Cali, rally  
Dirty, I can't help it  
I been an addict

[reggae voice]

Believe me! All massive an' all crew line up  
They can't get we out

[Madlib]

(Who that nigga over there man?)  
Niggaz lookin over here like shit is sweet  
All day mad cause a nigga said his shit is weak  
Askin for a true opinion, get mad when a nigga speak  
I ain't got no time for that shit, I already figure the  
nigga's weak  
You can't even trust your own best friend or your man

and them  
Cause them niggaz only worry about the shit you  
handin them  
Shit, all a nigga wanna do is get cake  
All a nigga wanna do is be fake  
Look around, all snakes, for heaven sakes  
Buried with fake, I carry it hate, made in every state

Rock, ohh, ohh, uhh  
Dilla Dawg  
Madlib  
Yeah  
Ohh~! Ohh~! Dilla

[scratching]  
Let's build on it  
Vintage Cadillac with the grill fronted  
Totin in the BM-Dub  
Tell them players I'm the GM

[reggae voice]  
Believe me! That is the wickedest sound  
that player had in him then use..  
Down with all massive and all crew line up  
They can't get we out  
When it come to championship - yes we 'ave it  
And when it come to dignitary  
{\*speaking too fast to translate\*}
