Hey what's up, oh, oh  
Baby you know what  
I don't know if I ever told you this before, oh  
I just want you to know that

I'm in love with you  
Just say you love me too  
Sitting here thinking bout you  
And every little thing you do to me  
Can you get my mind off you?  
And every other thing you do for me  
I'm so excited babe  
Can't deny that this love is on fire babe  
Finally I can say that I found a man I love  
And you're the only man I want

I adore  
Everything I do  
Everything you do  
Loving you is cool, I'm telling you  
I'm yours my baby  
Every day and every single way I'm not playing  
There's nothing left to say but i

Love you, love you, love you, love you  
Love you, love you, love you, love you  
And I won't trade nothing for you  
I adore my baby  
I'm with you  
Won't ever go away  
Forever be your baby, babe

The funny thing about us boy  
I never thought that we would go this far  
You've shown me things I've never seen  
Boy you know the way straight to my heart (yeah)  
I don't care what people saying  
You're my man and it's always gonna be this way  
That's the plan  
So I never turn my back on you  
Do you hear what I'm telling you?

I adore  
Everything I do  
Everything you do  
Loving you is cool, I'm telling you  
I'm yours my baby  
Every day and every single way I'm not playing  
There's nothing left to say but i

Love you, love you, love you, love you  
Love you, love you, love you, love you  
And I won't trade nothing for you  
I adore my baby  
I'm with you  
Won't ever go away  
Forever be your baby, babe

I adore everything you do  
I want nothing more than to be with you  
I really love you  
And I adore

I adore  
Everything I do  
Everything you do  
Loving you is cool, I'm telling you  
I'm yours my baby  
Every day and every single way I'm not playing  
There's nothing left to say but i

Love you, love you, love you, love you  
Love you, love you, love you, love you  
And I won't trade nothing for you  
I adore my baby  
I'm with you  
Won't ever go away  
Forever be your baby, babe
