Come down on me, come down  
Let it come down and down

I'd never change a single thing I've done  
I'll pack my bags and say I'm on my way back now  
'Cuz the trains long long lost distance far from me  
I'm on my way, on my way, on my way, on my way back  
home

So let the rain come down on me  
Let it come down and down  
Come down on me, come down  
Let it come down and down

How can I hold you in so close  
And how could I not let anybody know  
How sweet it is to call your name  
If you loved me once would it be the same?

Come down on me, come down  
Let it come down and down  
Come down on me, come down  
Let it come down and down

The smell of love is fresh inside my heart  
Not all the things we've learned can tear us both apart  
What I feel now tells me I must go  
I'm not who you love anymore

Let the rain come down on me  
Let it come down and down  
Come down on me, come down  
Let it come down and down  
Let it come down  
Oh let it, please let it come down on me  
Oh let it, please let it come down on me

I don't wanna lie  
I don't wanna hide  
I don't wanna run  
From the thing that's deep inside  
I just wanna talk to you

And walk with you and talk to you tonight

I don't wanna lie

I don't wanna lie, lie to you

I don't wanna hide

I don't wanna hide, hide from you

I don't wanna lie

I don't wanna lie, lie to you

I don't wanna hide

I don't wanna hide, hide from you
