Where's the ocean, where's the ocean?
Where's the ocean for us and us?
As my body touches you
And my soul entwines the view
Of an ocean and a sea of love

Down into the depths of time and all eternity
Down into the depths of all the things I find reminding
me
Your voice it calling me haunting me like ghosts at sea
Will you be the one my ocean and my divine

Where's the ocean, where's the ocean?
Where's the moments I once knew inside my heart
Where's the ocean, where's the ocean?
Where's the ocean for us and us

I stand pointed by the view you want to stay
As the silhouette of lovers as they fade into decay
Playing with the thoughts still tortured we were once
true lovers
But now I don't see the ocean very clear

Where's the ocean, where's the ocean?
Where's the moments I once knew inside my heart
Where's the ocean, where's the ocean?
Where's the ocean for us and us

Come and dive into my sea
Come and dive into my sea
Come and dive into my ocean
And remember the call
And remember the cry of time

Where's the ocean?
Where's the moments I once knew inside my heart?
Where's the ocean for us, where's the ocean for me
When you covered me with kisses oh it meant so very
much
Where's the ocean, where's the ocean?

The ocean's here

The ocean's here
The ocean's here
