Fly like a bird

I want you to take me higher and higher
I want to fly like a bird
I want to see things i've never before with you
I want you to hold me tight
and don't let me blow away with the wind
Oh I want you to be right here with me
til now and forever is gone

Oh baby

Chrous

Just take me higher
No point in staying low like this
Lets spread out our wings
And Fly Like a bird
lets wait for magic
let us both be
Lets walk on our paths we chose
And Enjoy as much as we can

Oh come on and lets get it over

I want you to hold me tight
Dont let me blow away with the wind
I feel so cold without you
Just take me higher
No point in staying low like this

come on and lets begin to show our true selves
Lets take one step And move another
Lets Make our selves Strong
Stronger then we've ever been

OHhhh baby

Chrous

Just take me higher and higher

No point in staying low like this
Lets spread out our wings
And Fly Like a bird
lets wait for magic
let us both be
Lets walk on our paths we chose
And Enjoy as much as we can

Ohhh

Bridge.

Lets not Hold back
lets not look back
Lets not Take back
Lets move forward
And Get strong
and fly away

Oh come on and lets get it over

OHhhh baby

Chrous

Just take me higher and higher
No point in staying low like this
Lets spread out our wings
And Fly Like a bird
lets wait for magic
let us both be
Lets walk on our paths we chose
And Enjoy as much as we can

Lets fly like a bird
Come on and lets get this over
Lets fly away together.
