In This Life

Today I think I finally made it'  
I just thought that if I talk to people  
more the smile at me and start talking back  
you know all I seem to wanna do is be with you  
In this life I find so much unbelievable  
but its also beautiful

I discover, something new here  
there were thoughts for a long while  
until one made up it's mind

In this life I find so much beautiful  
in this life, I can-not see before hand'  
in this life I love every1  
because I believe in my own way  
I'm a lovable star"

most people may not believe it  
but most other people do"

In this life I can be dark  
In this life I can be strong'  
In this life I can learn how to change,

Yes in this life I get what I see'  
oh i'm so to lucky-  
In this life I'm loved  
Lots of things I love to much

In this life, I get frustrations  
But than again, In this life  
I have fun that never, ends"/

x chorus  
Fade's away
