Lust "

Today was the day I was missing,
The moods changed I thought wrong
gee i've noticed that I want to love you like
I believe I do, what it's just some kind of lust
and what if it's all just my mind,?
I want to be sure, Before you know it all

Chorus

The first time I saw you
I thought love at first
But then I kept on thinking
and I felt a little confused
still am I wish I knew
what if it's just some kind of lust?
What if? Oh yeah.. its just some kind of lust..
Yeah oh yeah

I hope that it's not just my mind
I hope it's real Because I believe in you
and I hope the same goes to me
from you , your like a angel,
I've never seen only in one of my dreams

Chorus

the first time I saw you
I thought love at first
but then I kept thinking
and I felt a little confused
still am I wish I knew
what if its just some kind of lust?
What if Its just some kind of lust?
ohh yeah...some kind of lust..

yeah oh yeah..
he yeah

bridge

What if it's just my imagination

Playing some kind of love game on me?

What if the love I have is just lust
am I too young to feel what I feel?
what do I do ?
Ohh yeah
who knows where I might end from here"

You're like my twinkling star
from the planet I'd rather live on
you make me much more noticeable

What if it's just lust?
Oh yeah
Some kind of lust..

You're like my twinkling star
from the planet I'd rather live on
you make me much more noticeable
Yeah

Chorus... fades away.
