Never fade's away

Nobody Listens,
Nobody Cares,
oh It seems like life never fades away to me
I want to scream, to get all the hate out
I wanna be right, (be right)
oh I wanna show you what I can do tonight

oh baby,
what do I do when I know life, never fades away
and all thats left in the end is flawed and predictable
me?

I can smile, I can sing,
I can do whatever I like
No rergets, NO comments
I just do what I want,
Oh you know I'd love to spend a thousand years
here on earth, just to be with you,
I'd do anything, I'd do anything to please
You well

Chorus

life never fades' away
No matter what you see,
No matter what you see
it never, ends from this minute
I sing this song to you
I will always believe you love me like I love you'
If there is any way to make you stay
please show me, Cause I'd do it yeah ohhh yeah..

I can search the world and still not find what I'm looking
for
I can turn around and let my world spin
Well I'm standing on it
I can, forget an forgive all what I hate to remember
Just need my way this time, oh yeah

Chorus

life never fades' away
No matter what you see,
No matter what you see
it never, ends from this minute
I sing this song to you (sing this song to you)
I will always believe you love me like I love you'
If there is any way to make you stay
please show me, Cause I'd do it yeah ohhh yeah

ohh
Life never fades away"
Remember, me from this minute,
I sing this song to you..
Ohh yeah
Life never, fades away
no matter what you see,
it never ends,
No matter what you see,
it never ends
It never, ends.
