No matter what took you away

Here I am feeling like I can make it and everything  
But I look onto the darker side  
and I see a past of hell everywhere  
I feel empty inside I just don't know anymore if I  
should hide it

so I say no matter what took you away I'll still be strong  
and hope things go right even if some things go wrong  
I won't change to help my pain heal  
do you hear me right?  
will you stand by my side watching me fight for a life  
Will you just believe In me forever?

Chorus

no matter what took you away  
doesn't mean I am gonna go low  
I wanna feel free to do whatever I want  
I can't let the pain keep me on hold  
I can't let that fear get in the way Of my life  
I can't hide feeling lost, I'd rather show it  
to make it go away

No nothing is gonna stop me from giving you that  
brightness in my smile  
even though this time is rough  
I still want you to know  
I am gonna be stronger then ever  
I can't keep my life on hold  
I can't hide feeling emptiness  
I can't hide feeling lost  
I wanna bring what today is all about.....  
yeah oh yeah

I wanna show the world My life  
I wanna give the best of me'  
But how can I if People are just gonna judge right away  
even though I feel unwanted  
I still feel wanted at the same time

It's all about who I am inside that count's

### Chorus

No matter what took you away  
doesn't mean I am gonna go low  
I wanna feel free to do whatever I want  
I can't let the pain keep me on hold  
I can't let that fear get in the way of my life  
I can't hide feeling lost, I'd rather show it  
to make it go away

Give in the attention  
Make me Wiser my song,  
make me feel stronger then ever,  
make me believe in my dreams  
I can't give up  
I can't let the pain keep me on hold  
do you hear me right?  
no sadness anymore only that brightness in my  
smile....

Yeah Yeah Yeah

NO matter what  
No Matter what  
No matter what took you away  
I'll still always be brave.
