Stronger in your arms

I feel like a girl
with no intentions on
asking herself why I feel
Stronger in your arms oh my love

I just feel like floating away
With you,
I hope to be set off to
A place where we dont grow and get old
like a land where we have
Somewhere to love and breathe,
Forever and ever

I'll be forever with you
I'll be forever stronger in your arms
I'll be forever fearless
just wanna be held tight

I feel stronger in your arms
I feel like a cast away with you
Just wanna love you more and more
If only you knew
what we had ahead of us

Oh my love,
I just feel like floating away, with you
Oh your my love
come closer, get with me
dont leave me, come on
be mine, forever
Til love dies

I'll be forever with you
I'll be forever stronger in your arms
I'll be forever fearless

Forever fearless towards the word love,
wont be scared no not me No not I
just wanna love you more and more

Til its the end, til its the end

I hope to be set off to
A place where we dont grow and get old
like a land where we have
Somewhere to love and breathe,
Forever and ever
just think of me and you'll be alright
oh my love..

I'll be Forever fearless towards the word love,
wont be scared no not me No not I
just wanna love you more and more
Til its the end, til its the end of it

I just feel stronger in your arms,
I feel like a cast away with you
I just feel like a set off to my own world
And thats this, Right now....

Oh my love,
I just feel like floating away, with you
Oh your my love
come closer, get with me
dont leave me, come on
be mine, forever
Til love dies

Slowly --- fading.
