The flame and spirit

Its just the flame and spirit  
I love the most,  
Its this world' of love  
I enjoy living in oh baby,

When tommrow comes,  
I want u to wake me up  
and tell me is Forever going  
To be forever,  
Or will forever be gone oneday?  
Without us even knowing?

Sometimes I feel like the world  
Is coming to and end for me,  
Sometimes I feel like I see things  
When they actually there"

Chrous

Its just the flame and spirit I love  
Here on earth,  
I don't know what I'd do without  
A song like this being unwritten,  
its just the flame and spirit I love"  
The most,

If we come to an end" and another world is created,  
Well i want to be the first to know,  
Its just the Fire wind earth water,  
I love the thought of baby ,

Chrous

Its just the flame and spirit I love the most  
Here on earth,  
I don't know what I'd do without  
A song like this being unwritten,  
its just the flame and spirit I love"  
The most,

Its just the flame and spirit I love  
The most,  
Its just the fire wind earth water,  
I love the thought of oh baby

Sometimes I feel like the world  
Is coming to an end for me,  
Sometimes I feel like I see things  
When they actually there"

Yeah oh yeah

It's just the flame and spirit  
I love the most baby"  
I don't know what i'd do without  
A song like this being unwritten..

Its my soul that loves  
The Spirit Of writing,  
I love it so much,  
Oh come on I never want  
To end this song..

It's just the flame and spirit I love  
The most .
