"Big Things"

Visit "[Big Things](#)" on [MotoLyrics.com](#)

I'm leaving, even though
They don't think I should go
They say that, I'm dreaming
But they really don't know

There's more things to life than
They've even heard of
And I wanna be something

I'm tryna do big things
I wanna go places
All around the world, yeah
Tell me do you feel me
I wanna do big things

I'm tryna do big things
I wanna go places
All around the world, yeah
Tell me do you feel me
I wanna do big things

They knock me, for wanting
More than one carat rings
I guess that's, expected
That's all they've ever seen

If they've seen what I've seen
And been where I've been
I bet they wouldn't knock me then, ooh

Put yourself in my position
Even my friends said I wouldn't make it
But I can't let it hold me down
So where do you wanna head, move around 'cuz

I'm tryna do big things
I wanna go places
All around the world, yeah
Tell me do you feel me
I wanna do big things

I'm tryna do big things

I wanna go places
All around the world, yeah
Tell me do you feel me
I wanna do big things

That you'll be happy if
I stayed in the hood forever
But I'm not having it
I got to get out of here

Tell me to keep it real?
Look at you and say whatever
And I gotta get this cheddar
Heard me?

I'm tryna do big things
I wanna go places
All around the world, yeah
Tell me do you feel me
I wanna do big things

I'm tryna do big things
I wanna go places
All around the world, yeah
Tell me do you feel me
I wanna do big things

I'm tryna do big things
I wanna go places
All around the world, yeah
Tell me do you feel me
I wanna do big things

I'm tryna do big things
I wanna go places
All around the world, yeah
Tell me do you feel me
I wanna do big things

All around the world, oh
