I let my mind run loose on the scribe on the regular  
My school books is gone nothin' left but my pow to the  
death  
I rock the bells and the pony tails  
Keep it comin' inside the greens, strike the vasaline  
Across the face slightly, those party hoes that wanna  
see me  
Keep the interview in the room full of boom  
Unlimited capacity I'm all that and then some, still  
wanna come?  
Don't question my squads capabilities its 180 times two  
degrees

Big Kim talking:

Yo this is Big Kim from the Duo. Def Squad I'm about to

bring out my ace  
boon coon T-Man. Represent represent.

T-Man:

I put my mind through test when I smoke sess  
Never the less I release stress with something def  
So why bother trying death defying stunts I puff blunts  
And fake niggas that want to front  
I enter minds like a conscience or a spirit  
Niggas get nauseous when I receipt my lyrics  
So when you hear it run to towel bowls and commodes  
I dispose of foes flip them inside out like dirty clothes

Big Kim:

I test men like the broadcast system  
Gettin' pressure points when I hit them in the begining  
I give niggas fits with my wits  
God gifted a mastermind when I'm writting inbetween  
the lines

Erick Sermon Outro:

Ha , This is one more Def Squad production (yeah yeah
