The sounds of the world escape me
The moments you crack
Now you're driving
Down the highway of regrets
You're a victim
Of your appetite
Promises broken
Yeah
You're that restless kind

Only you only you can stop this
Stop this from pullin' us under
Baby no one can do this but you

Blue dreams about you
My eyes wide open
You think you lost it
My heart for you
The sphere of you're not being here with me
You move in slow motion
Stopping rewind
Back to better times

Only you only you can stop this
Stop this from pullin' us under
Only you can stop this
Stop this from pullin' us under
Baby no one can do this but you
But you... Hey

Only you, only you can stop this
Only you, only you can stop this, yeah, yeah
Only you, only you can stop this, yeah
Only you, only you can stop this, yeah
Oh yeah
Only you, come on baby
Yo baby, only you can stop this, hahaha
