I'm lost inside my mind
I'm lost inside my feelings
Thinking about you
Missing your touch and your kiss
I can't believe you got be fallin' like this
And I don't wanna end a feeling like this

CHORUS:

You know I want to share my world with you
I wanna be with you this feelings will never change
You know I want to forever live in this moment
I wanna spend the rest of my life
Only with you

Dreaming of a life, a lifetime lived with you
I couldn't imagine if it wouldn't be with you
I wanna take you to forever with me
You're just the best thing that happened to me

(Repeat Chorus 2x)

Only with you
I wanna spend the rest of my life
Only with you
