"We Belong"

I've tried to tell you
So many times this feelings of mine
But it's not that easy
Letting you know
How I love you so

chorus

Complete me, you complete me
I've never felt this way
Complete me, you complete me
Like words and melody

Don't you know that we both belong, baby
Don't you know that we will last forever
Don't you know that we both belong
I knew it from the start, we belong

Hoping that someday
For that hello, just a simple hello
And maybe tomorrow
I'm the reason you'll smile
And you make my day

repeat chorus

Bridge:
Together, you're my shelter in the pouring rain
I just hope that you will see
You and me we belong

Don't you know that we both belong, baby
Don't you know that we will last forever
Don't you know that we both belong
I knew it from the start
We belong
