[Warren G]

Suckas be hatin when they know we makin cash
I don't give a fuck I'm still down and ready to smash
Haters be sayin Warren G fell off
How is that when I put the beach and Snoop on the map
The only way they comin to jack you
You better come right to save case and glocks on site
Ain't know body I know checkin for you
I got gold platinum look at my wrist fool
It's a million and one ways to what people say
They gone say what they say but they fail to display
Where I went wrong, can't I do right
In the city I face snitches, with no britches
Quick to judge and hold a grudge
and all this time I showed them love

Hook: [Warren G]

This is somthing fo you to bounce to
It's for the summer time I'm a hit switches for you
This is somthing for you to bounce to
This is somthing for you to bounce to
This is somthing for you to bounce to
This is somthing for you to bounce to

[Warren G]
G'd dub what's really crackin with you
I just signed with universal this game so persal
What's up with you and your boy Snoop
That's my dogg for life how you figure we ain't tight
What's up with 2-1-3
It's comin so start your tape that's runnin
They wanna know is you keepin it G'd
As big Lou Dogg from 21st street
It's amazin how time flys
Some time I sit back and wonder why
Most people don't keep it tight
and most G'z don't G it right
and me I always bounce it right
Make you wiggle that ass till you get it right
Baby what you perkin for
Mo' bounce to the ounce if you wan't some more

Hook: [Warren G]
