"Dopes To Infinity"

Visit "[Dopes To Infinity](#)" on MotoLyrics.com

I can see by the hole in your head that you wanna be
friends

You're the right one baby

I can tell by the moon in your eyes that you're loved by
the tribe

You're the right one baby

Hook you up to the coil of the one who makes time with
the sun

And who keeps us pumping

See your mind on the hood of my car, and forever in
power

As the world keeps dumping down

We are the only ones

Put the earth in the crook of your arm now

Tease it and and charm it and watch life spray
everywhere

I have something more cosmic in mind

It's a warpage of time and it's bliss for everyone

Hook you up to the coil of the one who makes time with
the sun

And who keeps us pumping

See your mind on the hood of my car, and forever in
power

As the world keeps dumping down

We are the only ones

Oh yeah

Yeah we are the only ones

(What can I say)

(What can I say)

(What can I say)

(What can I say)

We are all here my friend

All dogged all spaced but all so beautiful

We burn that mountain down

And always pump for peace when possible

We bite ourselves and bite our dogs

And stretch the flesh unmovable

We are all here my friends

Alive and spaced but all so beautiful

We are all here my friends

All dead and spaced but all so beautiful

We burn that mountain down

And always pump for peace when possible

We bite ourselves and bite our dogs

And stretch the flesh unmovable

We are all here my friends

Alive and spaced but all so beautiful
