Whos gonna teach you how to dance

who's gonna show you how to fly

whos gonna call you on that lame dope smokin little
sucker you are

whos gonna hit you from behind

whos gonna ring your little bell

when are you gonna blow the ??

when are you gonna blow this dream

when you gonna tell them the crack doesn't wash

and you've found a way to make your own dreams

when you gonna tell them the crack doesn't wash

and you've found a way to make yourself scream

well i've died a million times

and i picked my culture well

and i'll build myself again

then we all can go to hell

Chorus

i never want to work

another day in my life

the gods told me to relax

said i'm gonna get fixed up right

now i'm never gonna work another day in my life
i'm way to busy powertrippin
but i'm gonna shed you some light
yyaaaaaaaaa get down
woooooooooowwww
dooooownnnn
Whos gonna teach you how to dance
who's gonna show you how to fly
when you get tired of the crap
baby move over here and maybe buy some of mine
i never gonna work
another day in my life
the gods told me to relax
said i'm gonna get fixed up right
now i'm never gonna work another day in my life
i'm way to busy powertrippin
but i'm gonna shed you some light
another day in my life
the gods told me to relax
said i'm gonna get fixed up right
now i'm never gonna work another day in my life
i'm way to busy powertrippin
but i'm gonna shed you some light
