Brought back here in the mountains you start  
complaining again  
Find a way to believe me when there's no plan to win  
I was there in the courtyard waiting for, for you to come  
in  
But there's no path to follow so I'll just stay here and sin  
In the night through shimmering light  
We walk and we run to survive  
And it goes on and on and on

Take you time  
Take you're time now

I'll find a way to impress you otherwise I won't be your  
girl  
Tomorrow all will be gone and we  
We'll start on new ground  
In the night through shimmering light  
We walk and we run to survive  
And it goes on and on

Getaway heart  
It's the way to be  
It's what we need  
Getaway heart  
It's a therapy between you and me

Suddenly everyone panicked  
I could not see a thing  
Screaming people around me but  
It's not what it seemed  
In the night through shimmering light  
We walk and we run to survive  
And it goes on and on and on yeah

Getaway heart  
It's the way to be  
It's what we need  
Getaway heart  
It's a therapy between you and me
