Brothers, sisters, listen to what we say  
Moaning and groaning won't dry those blues away  
Lift up your voices in song  
You know you've all done wrong you sinners

Drop everything  
Let the harmony ring  
Up to Heaven  
Sing you sinners

And just wave your arms all about  
Let the Lord hear you shout  
Pour the music right out  
And sing you sinners

Whenever there's music  
The devil kicks  
He don't allow music  
By the river Styx

You're wicked and you're depraved  
And you're all misbehaved  
If you wanna be saved  
Sing you sinners

Swing, swing  
Swing, swing  
Swing, swing you sinners

Whenever there's music  
The devil kicks  
He don't allow music  
By the river Styx

You're wicked and you're depraved  
And you're all misbehaved  
Oh, if you wanna be saved  
If you wanna be saved  
Well, sing you sinners
