I know it get's a little hard sometimes
I want you to know baby, that I love you
I love you, I love you

I don't want you to worry about a thing
I want you to close your eyes and just breathe
Breathe baby, breathe

We got a love baby, we got a real love
Don't you worry about a thing baby
I don't want you to worry about a thing
(Promise)

You know I love you baby, you know I love you baby
I just want you to close your eyes
Close your eyes baby, let me do the rest baby
Yes baby, that's what I'm talking about baby

I love you baby, all the time baby
(Tell me you want me baby)
I want you so much baby
(Tell me you need me)
I need you so much right now baby
(Do you, do you)
Yeah baby

(How's it gonna be?)
Everything is gonna be alright in the morning
Everything is gonna be alright this morning baby
(Promise, promise)
Yeah, everything is gonna be alright (Promise,
promise)
Everything, everything (I believe you baby)

You're touching my heart, touching my soul
I love you baby (love, love, love, love)
Oh I love the way you make me feel baby
Oh baby im so into you, Im so fucking into you
Damn baby, that's it baby
Do you know, do you know, how much I love you?
You know just how much (say it baby)

I want you (do you, do you?)

I want you to close your eyes
and just know that everything (everything), everything
(everything)
I mean everything's gonna be alright in the morning
Everything

I love you, yes I do
I love you baby
Damn you make me feel like I'm flying
Flying so high baby

Tell me you love me
(I love you baby)
You know how that makes me feel

All I want you to do is breathe
Just breathe
Hold my hand baby
Just hold my hand
Touch, touch my heart baby

Do you love me baby?
I love you

Just breathe
Everything, everything is gonna be alright this morning
(Everything), everything (everything), everything

Let me do this
Hahaha, yes I love you

How are we going to work it out?
When we're going to work it out
I no longer wanna leave
Never, never, never, never, never, never
