You found a place where you belong

New friends that can do no wrong

That's what you believe

But who is going to be there when you fall

To build up when you are feeling small

Give you love that you need

Who will, I will

When the whold world turns against you

Ain't no lie

Chorus:

Don't you know that I will stand up for you

No matter what you are going through

I'm still on your side

Any time, day or night

Don't care if it's wrong or right

I'm still on your side

You want to run you want to break free

What you want ain't what you need

Can't you see that I care

I know I'm hard on you sometimes

But when you are looking for the things you can't find

Don't you know who'll be there

Who will, I will

When it's more than you can handle

Ain't no lie

Chorus

I'll be there, I'll be there, I'll be there

I'll be there when you need me

I won't let you go

There's nothing I won't do, I'll be there

Chorus

I will be around when the others let you down

I'm still on your side

Anytime you need help and you can't find nobody else

I'm still on your side
