I knew you all my life
Though only through my dreams
Look inside your mind and see what's on mine
Calling out my name I see you there

This frozen cold
It's isn't fair
How much pride will I spare
We both are seething

[chorus]
All I know is to act now and hold on
This one's the real one
Just calm down
Don't look back
This is what we never had
I never felt so alive 'til I saw blue eyes
Until now it wasn't hard to leave
I'm wanting more
[end chorus]

Everyone around but still alone
Try to grasp
Losing the flow

Use a single emotion
You left me totally motionless
So quick, so soft
Like a thief in the night
Came here and changed my life

Everyday the same
Just sit and stare
Will I see you in the air
These sperate lives
We don't share
Again I'm leaving

[Chorus]

I thought all this time
I would end up alone

Beside you I lay and
Watch you breathing

[Chorus]
