Kevin Gordon
"Don't Take It All"

Don't take it all away
Leave something behind
Let it stay for awhile
Somewhere in my mind
Here where the kids would play
Til the sun went down
When I came back this time
They were nowhere around

I lost my luck now where's my saving grace?
Are you sure you came to the right place?

Don't take it all
Without one more chance
Though I know I might blow it
Faster than a second glance

Don't take it all away
Send your boys back home
Say what you need to say
Then leave me alone

I lost my luck, now where's my saving grace?
Are you sure you came to the right place?

Where the kids would play
Til the sun went down
When I came back this time
They were nowhere around
