CHORUS:

Let's dance to this song (HEY!)

Let's dance to this song (HEY!)

Let's dance to this song (HEY!)

Let's dance

2x

VERSE 1:

I know you're thinkin that you heard this before

Some strings and bass to move your body to the floor

But girl don't matter if the beats are the same

Cause seeing your body move I'm just glad you came.

PRECHORUS 1:

Move this, move that, verse one, verse two

That's all these songs are meant to do

Just melodies, don't stop to think

Mindless moves girl let's grab a drink!

VERSE 2:

My turn to go but lyrics really don't matter.

Cause I got the flow to make your booty move faster.

Err time I hear this song I get up on my feet and dance.

I just want the same old noise that keeps my body in a
trance!

PRECHORUS 2:

Insert cliché, then you'll get plays

Drink, girls, dance, beat, blah blah repeat.

We made a hit, in 30 minutes

This s*** is tight! We done and did it!

BRIDGE

This is the music for our generation

The sounds for the kids that's sweeping the nation.

From coast to coast, and club to club,

Here's another pop song for all you to love.
