"Summer Sweetness"

Tuesday's a great night to go walking
Down the south path, over to the beach
The crowds are smaller, you can get a drink
I know a girl name Sarah, she works the bar

If you stroll the 4th pier right around sunset
The city looks just right, from over there
I remember the first time we found that moment
We cracked a bottle all we did was smile

I have been here before, I've been before
I have been here before, I've been before
I'm holding my breath, holding my ground
I can taste the summer sweetness, I can taste the
summer sound

I waited 6 months and now I feel better
Winter's almost over, cold is almost gone
What I'd give for just a little more time here
Summer in Chicago, you have no idea

I have been here before, I've been before
I have been here before, I've been before
I'm holding my breath, holding my ground
I can taste the summer sweetness, I can taste the
summer sound
