Hello
All you cats out there in stereo
Feelin strange and impossible
Heads all filled with chemicals
Watchin the insides of your eyelids glow

We love you
Don't forget to breathe
We love you
Don't forget to breathe
Don't forget to breathe

It might be me
As far as I can see
It could be you
If all of your dreams come true

Hello
All you kids out there in TV land
Fryin in the fryin pan
Flyin like Superman
While the world melts through your hands

We love you
Don't forget to breathe
Don't forget to breathe
We love you
Don't forget to breathe
Don't forget to breathe

It might be me
It might be you
If all of your dreams come true
