Tonight I
Surfaced from deep
With a new love

Tonight I
Roam your house while you sleep
In search of signs of humanity

The end is getting near
You'll be the death of us
Won't even shed a tear

Tonight I
Carved straight through your chest
Thoughts came wired

All that you know
Cherish by heart
Disconnect and fall apart

The end is getting near
You'll be the death of us
Won't even shed a tear

There you go
Knife me trough the wall
You'll be the death of us
There you go
Alarms are setting off
You'll be the death of us

End is getting near
You'll be the death of us
Knife me trough the wall
