Innocent? Like any good liar  
With all that money, weapons of war  
Slit their throat, U.S. vampire  
Have you heard?

They can hide everything,  
but not the stench of the dead  
Inside, so deep  
You hide the kids and women

I've seen evil inside your eyes  
Breeding hate, truth turns to a lie

Raising hell, capital at war  
The only way you can survive  
Bring them on, U.S. vampire  
Have you heard?

They can hide everything,  
but not the stench of the dead  
Inside, on our way  
The fifth colon is working

I've seen evil inside your eyes  
Breeding hate, truth turns to a lie

When this is over we can feel alive  
(Cause) I've seen evil inside your eyes

I've seen evil inside your eyes  
Breeding hate, truth turns to a lie

When this is over we'll feel alive  
I've seen evil inside your eyes
