Waiting my whole life for zero gravity,  
Mastering my time with microbes & dramamine

Fill me up inside now  
I'm feeling overblown  
I'm feeling psycho  
I saw you tumbling away

this is all I want  
Galactic memories  
Saw you in my dreams,  
Just the other day making love in stardust  
X rated on the moon I'm feeling physcho I saw you  
tubling away

Cosmonaut, Cosmonaut, I wanna be an astronaut, yeah  
oh

All the human race  
We'll cruice the ship awhile  
Burn up like the sun yeah  
A supernova style  
When I'm feeling Grounded  
When i'm feeling Overblown  
When I'm feeling Psycho  
I saw you tubling away

Cosmonaut, Cosmonaut, I wanna be an astronaut, yeah  
oh
