

## Kicks, The "Shake It Loose"

Visit "[Shake It Loose](#)" on [MotoLyrics.com](#)

Shake the shackles tied around your feet  
Lift the veil out from your eyes and see  
Don't you think?  
Don't you think?  
Everybody wants come and see  
What it is we see inside our dreams  
Don't use me  
Don't use me  
Falling down  
We're all coming down

You know you can move it  
I know you can move it  
Use it you've gotta shake it loose

Everything you've got is what you need  
Don't call me out you'll come around to  
see  
Wont you please  
Let em sing  
Falling down  
We're all coming down

You know you can move it  
I know you can move it  
Use it you've gotta shake it loose

I know you feel the pain  
But we are all the same  
Perpetual people standing out in the rain  
I know you can move it  
I know you can move it  
You've gotta shake it loose
