Hey Sally does your mama know where you've been
dancin and then you have gone to street
my babe, yeah
How much does it cost baby darl to give me a show and
barrie it all
away for fame, for fame oh oh oh oh

CHORUS

Sally you are my only girl
I keep you like my pretty girl
you can have everything in this world
for fame, for fame
Stars in your eyes girl and you don't know
the cover you are bind
if you don't play the game, yeah, for fame, for fame
Why don't you kiss me in diverse things
I'm feeling like a dying fame
Is this the right time to say something to you, to you
When you gogo high in the back of the club
do you think a million having a barb
That eternal thing that this could be the end, the end

CHORUS

Sally you are my only girl
I keep you like my pretty girl
you can have everything in this world
for fame, for fame
Stars in your eyes girl and you don't know
the cover you are bind
if you don't play the game, yeah, for fame, for fame

We gone away sometimes, sometimes
(Chorus repeated in background)
