"Be Safe"

It feels like Hollywood
With all the shiny suits tonight
Since no one opens up
I know that glamour is a drug

Yeah, with the things you say
And with the things you do
Go and sell your soul
That's how you all get through

Put some sparkles into this charade
We burn slowly

You and me
Can pull this off now
Got the strength to head up through the clouds
With the landscape below and the stars up above
I see which way
I should pick to be safe
You and me
Can pull this off, right?
Show no sign that you'll bail
Just when it's time
With the landscape below and the stars up above
I see which way
I should pick to be safe

Got the eyes to see
Just how you want to be tonight
Since no one opens up
I know that glamour is a drug

No, not a chance I'll sell
There is no way in hell
That I will end up rich
And shoot them in the back

With their foolishness
Yes they will end up dead

Don't worry

Don't worry
Don't worry
Don't worry we'll still have each-other
Just move all your feet and breathe faster
Let's make this a joyful disaster

Don't worry
Don't worry
We got to sing out and shout
Or we got to run for our lives.

You don't have to prove yourself
Just know that someday it'll change
You don't have to prove yourself at all
