So say hello, god dammit and goodbye
To all my friends and some of my enemies
It is time for me to grow
Grow up, Yeah

And there's that day
That will increase my average age
I'll be eighty years, deaf and blind
The chance of being stuck here for good

Yeah made my death want you
Where are you sleeping at night
Sleep with me under cold blue stars
Now let's stay

We'll stay around with you
Let's split this cake in two
I will for once
I want to keep it on
My bedroom wall and call it I
No matter what they say, yeah

Oh no, oh no
I felt a small regret that day (it was easy to lead astray)
Hey hey, hey hey
What the hell
Why I'm barely a kid

And I'll pull my sleeves
It's time for work
Honestly, the checkpoint is to far away
It's to far away

We'll stay around with you
Let's split this cake in two
I will for once
I want to keep it on
My bedroom wall and call it I
No matter what they say, yeah

We'll stay around with you

Let's split this cake in two
I will for once
I want to keep it on
My bedroom wall and call it I, yeah yeah
