Sun down  
Lights out  
Tomorrow we will set it off  
For now  
Let's make the best of what we have  
Build me up  
Before you wake me up

Tomorrow is another day for me  
Just another day for me to get through

Time's up  
Punch out  
Our day has barley just begun  
For now  
We'll make the best shit that we can  
Turn me up  
Before you wake me

Tomorrow is another day for me  
Just another day for me to get through

Another day for me  
Just another day for me to get through

Sun down  
Lights out  
Tomorrow we will set it off  
For now  
Let's make the best of what we have  
Won't you turn me up  
Before you wake me

Tomorrow is another day for me  
Just another day for me to get through

Another day for me  
Just another day for me to get through
