(Yaywo!)

Throw it down  
It's the runaround  
Don't you take this lightly  
A little strong  
and I'm going on  
What I take as slightly

Personal is logical to where were going

(Chorus)  
Down keep pace what to last all night  
Come on  
Now retrace what was lost all right  
Come on

(Yayow!)

Throw it down  
Grab another round  
For me, take it slowly  
A little coy  
maybe paranoid  
That you'll take it overly

Personal is logical to where were going

(Chorus)  
Down keep pace what to last all night  
Come on  
Now retrace what was lost all right  
Come on

Is this often lost, forgotten?  
Speechless forcing friends  
To run

Is it lost for you? (To run)  
Is it lost for you? (To run)  
Is it lost for you?

Is it lost for you?

Throw it down  
It's the runaround  
Don't you take this lightly  
A little strong  
and I'm going on  
What I take as slightly

Personal is logical (Yayow!)

(Chorus)  
Down keep pace what to last all night  
Come on  
Now retrace what was lost all right  
Come on

(Chorus)  
Down keep pace what to last all night  
Come on  
Now retrace what was lost all right  
Come on (Yayow!)
