I remember when we used to go down to the creek

Member when we used to go down to the creek?

And used to dip your head in the water?

Everybody thought you had it in you, you know

You used to jump out the water

the water used to glisten alllllll over your bohnhhhhdyy

What? I said the water used to glisten alllllll over your bohnhhhhdyy

[Intro: Ol Dirty Bastard]

Clean out my vocals

Yeah, I said YEAH

I said zuckazuhzuhzuh, zuckazuhzuh

C'mon baby baby, baby, baby

Baby, baby, baby, c'mon!

[Verse One:]

Superlogical this, superlogical that

I detect a nigga dialect by the way he rap

I elect myself President MC

My career so intelligent, unique physique

Then with mathematics, not democratic

static, topic, Asiatic

Zssshuh, them unique, never leak, brlaharl...

Bring it on back

Superlogical this, superlogical that

I detect your dialect by the way you rappp!

I elect myself President MC

My career so intelligent, unique physique

Doin mathematics and I'm not democratci

No static, topic, I'm Asiatic

See, I'm Unique, never... blarhalal...

[Verse Two: Method Man, Ol Dirty Bastard]

Crazy, lurkin in the shadows, I'm shady, sheisty

Get your weight up, don't take me lightly

Blasted, dirty to the grain I be stained with the

When it comes to the microphone who killed the swine?

[Interlude: Old Dirty Bastard, Method Man]

You are now in my trance

[Verse Three: Method Man]

This one here's for my people, my people

Enter the 36 chambers, the sequel

Part two, for me and the cipher troop

With the Teflon lyrics that you can't get through

With the twenty-two automatic rap you pack, what?

You ain't hittin with that wack shit you kickin

Straight from the beginning, of the game

All the way to the ninth inning, I bring the pain

Dark like the midnight train on the track by the RZA

Diesel like Arnold Schwarzanegger

[Outro: Ol Dirty Bastard]

The hardware, choose the hardware

Ask you a question, test the Ason

Extra extra, read the drama and thennn another one

which you intrigue, do your rap fatigue in the...
