"Where Go We"

Don't run us off the road
We'd just like ourselves a lane
We've got nothin to lose
Cuz our race is not in vain
So treat us like a dog
Cuz we eat from your floor
We'll take care of ourselves
Cuz you're taking care of yours

We raise the new flag as we dance on your street
We may be your children, but we wont stay in our seat

Where go we, it's unknown
Where go we, it's unwritten
Where go we, come what may
But how much can it hurt to stop and think

We're the pulse of the fire
Throwing gas back on the pyre
Watch those flames crack right back
With their attitudes to inspire
We're slave to the grind
In the belly of the beast
Gotta eat your way out now
If you, if you wanna succeed

We clear a new path so we can share this veiw
We may be your children, but we wont wear your
costume

Where go we, it's unknown
Where go we, it's unwritten
Where go we, come what may
But how much can it hurt to stop and think
It's unknown
Where go we, it's unwritten
Where go we, come what may
But how much can it hurt to stop and think
Cuz I dont mind a little dose of pain

We clear a new path so we can share this veiw

Where go we, it's unknown
Where go we, it's unwritten
Where go we, come what may
But how much can it hurt to stop and think
It's unknown
Where go we, it's unwritten
Where go we, come what may
But how much time does it need to take
Cuz I dont mind a little dose of pain
And how much can it hurt to stop and think
