Crack the window baby It's hot in this bedroom
It may be a little breeze out side burning up in this
bedroom
And you know when I see you sweat all I can think is
Boom Boom Boom Boom

Some where in the distance a cold old road dog start to
howl
She out there on the highway and it gives me chiles
when I hear her howl
You know the breast they drag the ground She got way
to many babies now

When day light hits us baby I got to leave your good
warm bed
I hope that you'll be sleep'in when I ease out of your
nice warm bed
I hope your feelin good all day long with nice thoughts
running through your head

Crack the window baby It's got hot in your bedroom
It may be a little breeze out side burning up in your
bedroom
And you know when I see you sweat Boom Boom Boom
Boom Bloom Bloom Bloom
