I've got something to tell you, I think that you ought to know

I've had my eyes on you baby since a long time ago  
And now I finally got the nerve, and I'm gonna make my move

Now don't you try to turn me off 'cause it's gonna be hard to do

I've got a thing about you baby, ain't nothing I can do  
I've got a thing about you baby, thing about loving you

Ain't no two ways about it baby, your love was meant for me  
You know I just can't live without it, it fits me to a T  
Oh there's something about you baby, can't get you off my mind  
I know that I can't live without you, I think about you all the time

I've got a thing about you baby, ain't nothing I can do  
I've got a thing about you baby, thing about loving you

Now ain't it just like a woman when she knows that she's got a man  
She'll wring you out and turn you about in the palm of her hand  
And then she starts to thinking, then maybe she's got you in a bind  
She'll give you just a little loving, it will get you every time

I've got a thing about you baby, ain't nothing I can do  
I've got a thing about you baby, thing about loving you.
