"Kind"

You could look me in the eye
And see the invitation I've addressed to you
And gladly I would share with you
The beauty of my vivid point of view

To see a stranger with a smile
Man it's been awhile but you're simply
You feel all right by me

You peacefully pass by
You suddenly seem high
Need a hand I'm you man
There's no need to ask me why

Cause if you're kind you're my kind
All the trouble we could leave behind
All the peace that we might find
If you're kind you're my kind

I'm already on your side
There's no honesty in false pride
We could take this time and leave it all behind
Oh brother if you kind

Brother are you kind
Hey? hey, yeah
Brother are you kind
Yeah my sister are you kind
Hey tell me are you my kind
Tell me are you kind
