Some people talk
Just to hear their lips rattle
Got their high positions
Same old ship but with a different paddler

Told me that I had to get commercialized
If I was gonna fit in with the show, no

Don't want no one telling me I got to
I move in my own time
Play this guitar anyway I want to
I own it and the amplifier

Everybody is getting tired
Of pushing buttons on their radio
Where was it wrote down
They got to cram it down our throats

I don't give a damn about the formulas
Hook lines make me feel like a fish, hook this

Wear my hair long down to my hip bone
If that's the way I feel
Wear my sunshades even in the night time
Ride my woman in a Coupe de Ville

I might want to rock
Play the blues all night long
I'm in this thing for life
I didn't come here for just one song

They can't put the music in a small bag
It's got to stay as free as I feel

Don't want no one telling me I got to
I move in my own time
Play this guitar any way I want to
Lightnin' Hopkins is a friend of mine

Don't want no one telling me I got to
I move in my own time
Play this music any way I want to

I must keep it alive

Just check it up
